

*Bring your home  
to life.*

Do you wish there was **CUSTOM** cabinet company that would make designing **simpler** with more **value**? There will be soon.

These days it's trying to keep up with so many new options, in so many product lines, at so many different price points, keeping track is nearly impossible. Too often getting clients the true custom features you want, means a price jump you don't. Woodharbor is about to change that.

## **COMING SEPTEMBER 7, 2010**

Woodharbor is taking a bold new direction, a simpler approach to the custom choices you want, with the value you demand. We are combining Woodharbor, Rockglen and CastPointe Cabinetry product lines to give you the simplicity of designing with true custom options and value – from one manufacturer in one catalog:

### **Woodharbor Framed and Frameless Cabinetry**

**“WOODHARBOR STANDARD” FRAMED** The cabinet construction currently offered in our Rockglen Cabinetry line, with custom choices previously available only in Woodharbor Premium Custom Cabinetry. ***True Custom at a value you won't find elsewhere.***

#### **Woodharbor Premium Upgrades**

**'Premium Upgrade Construction Package'** - If you're looking for the special furniture quality construction of Woodharbor premium custom cabinetry, simply choose the upgrade package. You'll get a Birch natural wood interior and the famous Woodharbor Maple drawer system featuring a ½ thick bottom.

**'Premium Drawer and Roll-out System Upgrade'** - You can upgrade just the drawers and roll outs - whether on a few select pieces or the entire order - your choice!

**'WOODHARBOR FRAMELESS'** The same frameless construction and value conscious price point we currently offer in our CastPointe Frameless Cabinetry line with substantial upgrades:

**More finish options** - including hand wiped stains

**More door styles** - door style selection expanding from 21 to 46

**NEW! Thermofoil Styles** - 16 door style/finish combinations

The new Woodharbor Framed and Frameless Cabinetry catalog will be introduced in September... but, starting July 1 we're offering **'special preview'** of what's coming in September. See the following page for details.
