Woodharbor Introduces 'Miracle' Door Style for Woodharbor Interior Doors

MASON CITY, Iowa—Woodharbor Doors & Cabinetry introduced the 'Miracle' door as the newest addition to the door styles options for the company's Woodharbor Premium Custom Interior Door product line. The 'Miracle' door style is a flat panel door with the center panel held in place by a mitered molding frame. Woodharbor's 'Miracle' door style is available in a wide range of sizes in Red Oak, Maple, Birch, Cherry, and 'Paintable' wood species.

The 'Miracle' door style is rooted in the Art Deco period 1920's and 30's that emphasized bold, geometric shapes, and clean lines to create sleek, contemporary looks. Woodharbor Corporate Designer, Tina Piper, ASID commented "The 'Miracle' door is a perfect example of the Art Deco philosophy of applying artistic designs to everyday objects". Piper goes on to say "This design fits so well into so many diverse styles, it's not surprising that it's just as relevant today as it was in the 1920's and 30's."
