

Artistry & Integrity

Woodharbor believes that beauty and craftsmanship are in the details. We take great pride in the artistry of our hand-applied finishes, unique door styles, and design elements and crafting each cabinet with quality and integrity - inside and out.

Our cabinetmakers combine the finest old world craftsmanship with state-of-the-art technology to create cabinetry that is truly exceptional.

Our raised panel cabinet doors are completely stained so unfinished material is not visible as the panels contract or expand with seasonal changes in humidity

More than a name

Woodharbor Signature Series is more than a name. It represents a dedication to artistry, integrity, and craftsmanship that harkens back to Woodharbor's very foundation.

Woodharbor Signature Series reflects the passion for quality and excellence that led Woodharbor founders, brothers Curtis, Dennis, and Jon Lewerke to venture into building cabinetry for the custom homes they built in the 1970's – unsatisfied with the quality of the cabinetry available to them as custom residential construction contractors.

In 1978, what began as a side venture burgeoned into a kitchen and bath cabinetry manufacturing company. The company introduced the 3/4" solid maple dovetail drawer (*the standard in today's market*) and earned a position as a major leader in the industry with a reputation for excellence in quality and design. The reputation and tradition Woodharbor Custom Cabinetry continues to take great pride in today.

Woodharbor Signature Series is our continued commitment to craft cabinetry for your kitchen, bath, and home with the qualities we appreciate most in fine furniture... timeless beauty, lasting durability, and thoughtful attention to detail.
